The PF7000 Automatic Rising Bollards

We are proud to introduce a new product to our extensive range of perimeter security products. This range of bollards are tough, reliable and uncompromising. There are currently four options detailed below.

PF7277 Protecta	Crash Rated Electro-Mechanical Bollard
Supply Voltage	230vAC Single Phase 60Hz
Dimensions/Finish	Ø273 / 700 high / Steel Powder Coated
Accessories	LED High Power Warning Lights
Notes: This product is designed as a crash rated bollard to prevent un-authorised access to military sites, embassies and all areas needing high security. It has been crash tested to stop a 3 tonne vehicle at 70 km/h.	
PF7217E SS Lights	Stainless Steel Electro-Mechanical Bollard
Supply Voltage	230vAC Single Phase 60Hz
Dimensions/Finish	Ø210 / 700 high / Stainless Steel
Accessories	LED High Power Warning Lights/Reflective Band
Notes: This product is designed as a strong bollard which is crash rated, however the bollard is also designed to be aesthetically pleasing and would suit prestigious sites such as big business building or public areas such as shops, jewellers etc. It will stop a 1ton vehicle at 50Km/h	
PF7207E Lights	"All Round" Electro-Mechanical Bollard
Supply Voltage	230vAC Single Phase 60Hz
Dimensions/Finish	Ø200 / 700 high / Steel Powder Coated
Accessories	LED High Power Warning Lights/Reflective Band
Notes: This is by far are most popular product in the range, it's attributes speak for themselves. It is a product which is a brilliant all rounder which will suit most projects, it protects your premises has LED warning lights to increase visibility and presence and it does all this for a VERY competitive price.	
PF7115E	General Purpose Electro-Mechanical Bollard
Supply Voltage	230vAC Single Phase 60Hz
Dimensions/Finish	Ø115 / 490 high / Steel Powder Coated
Accessories	Light Reflecting Banding
Notes: This is the smallest bollard we offer in the range. It does not share the LED facilities of the other bollards it has Light reflecting tape instead. It does however share the same superior quality design and build characteristics from the rest of the range. It suits domestic and retail enviroments.
